PROFESSIONAL SUMMARY

Seasoned Web Architect and UI/UX Strategist with 19+ years of experience delivering enterprise B2B SaaS web platforms and integrated digital initiatives. Brings a strong blend of design, front-end engineering, and web operations expertise, translating business objectives into scalable, accessible, and conversion-optimized experiences. Proficient in Generative AI-enabled delivery, design systems, and web performance optimization, and highly effective in cross-functional collaboration with Marketing, Product, and Engineering to drive measurable business impact.

CORE STRENGTHS

Web Development • User Experience (UX) • User Interface (UI) Design • User Research & Testing • Information Architecture • Wireframing & Prototyping • Design Systems • Accessibility (WCAG) • Visual Design • Front-End Development (HTML5/CSS3/JavaScript) • Responsive Web Design • Performance Optimization • Animation & Motion • CMS (WordPress, Craft CMS, Sitecore) • Reusable Templates & Components • A/B Testing • CRO • Analytics & Data • Landing Page Design • Email Templates • Marketing Automation (Marketo, HubSpot) • Generative AI • AEO/SEO Best Practices

EXPERIENCE

Camunda Inc

Senior Web Developer

April 2023 to Present

CAMUNDA

Responsible for Camunda's global web presence, delivering high-performance websites, landing pages, microsites, and event platforms. Acted as the conduit between Creative and Web Marketing teams, led special web initiatives, optimized conversion and traffic performance, and drove continuous UX improvements through research, analytics, and modern web technologies.

- Own end-to-end UX and front-end delivery across global marketing web experiences, including landing pages, campaign microsites, and event platforms.
- Built and maintained scalable WordPress/Elementor templates and reusable components to improve speed-to-launch and experience consistency.
- Led navigation/mega-menu redesign to improve discoverability and CTA effectiveness, driving a 2x engagement lift within 4 weeks (30.8K clicks).
- Led end-to-end design and implementation of major annual event websites (including 5 global CamundaCon conferences and 4 internal Retreat websites), integrating external registration platforms to support high-volume attendee flows for thousands of registrations.

- Led Core Web Vitals optimization efforts, refining asset delivery and code execution to improve Page Speed scores, directly contributing to improved SEO rankings and a 15% reduction in bounce rate.
- Partnered cross-functionally with Marketing, Creative to scope work, align priorities, and ship high-quality releases across global web properties. Supported the Camunda Academy, Developer Portal, and Customer Portal teams by establishing UX best practices and delivering design mockups.

Senior Web Marketing Manager

January 2021 to March 2023

- Orchestrated a strategic CMS migration of 2,000+ pages from Contentful to WordPress with zero downtime, preserving SEO authority and improving publishing velocity for non-technical teams. Successfully maintained a robust multi-language framework (English and German) across the web ecosystem. Engineered a conflict-free localization architecture that ensured seamless content synchronization and zero implementation issues between regional sites.
- Enforced global governance and compliance aligned to GDPR, CCPA, and SOC 2, implementing cookie consent management and privacy workflows across international web properties.
- Partnered with Demand Gen to design high-converting HubSpot demo flows. Refined form UX and CTA placement through A/B testing, resulting in a 3X improvement in demo conversion rates.
- Redesigned high-volume pages based on heatmap analysis, rearranging layout elements to remove friction from the user journey. This strategic update streamlined the registration path and significantly improved user throughput for key conversion points.

SumTotal Systems | Skillsoft

Digital Marketing Manager

December 2017 to January 2021

Strategic Focus: Global Scale, Personalization, Automation, and Compliance.

- Managed a large-scale global web ecosystem serving thousands of users across 5+ localized regions (EMEA, APAC, NA), implementing automated workflows to ensure strict content consistency and streamline maintenance operations at scale.
- Spearheaded the implementation of the Evergage web personalization platform, deploying dynamic content rules and behavioral targeting to deliver optimized, 1:1 user experiences.
- Orchestrated end-to-end marketing campaign operations, executing sophisticated lead nurturing and scoring programs to accelerate pipeline velocity and qualify high-intent prospects.
- Designed and built a comprehensive global unsubscribe and preference management system, ensuring full GDPR compliance and maintaining strict database hygiene.
- Led a company-wide initiative to achieve WCAG 2.1 AA compliance, auditing and remediating 2,000+ legacy pages to mitigate legal risk and open access to major public sector audiences.
- Executed organic and PPC strategies that consistently improved search visibility, collaborating with content teams to optimize site architecture for crawlability and indexation.

Lead - Digital Marketing Operations, April 2014 to December 2017

- Managed end-to-end marketing initiatives and high-volume email campaigns using Marketo, overseeing the entire lifecycle from audience segmentation and asset creation (landing pages, email templates) to complex automation workflows, global newsletter cadences, and product release communications.
- Owned the end-to-end execution of all web requests, managing the complete workflow from custom page layout design and technical implementation to final deployment across multiple language sites.
- Led the end-to-end design, development, and launch of the "Perspectives" annual conference website, delivering a pixel-perfect, conversion-focused user experience with action-oriented CTAs that drove online registrations. Implemented demographic-based personalization to dynamically serve tailored content and region-specific pages for APAC, NA, and EMEA audiences.

Senior Specialist - Digital Marketing Operations, April 2013 to April 2014

- Owned the end-to-end development of campaign-focused microsites and event platforms to support demand generation initiatives.
- Introduced systematic A/B testing for key landing pages, establishing the baseline metrics for future conversion optimization efforts.

Webmaster, September 2010 to March 2013

- Managed day-to-day operations for enterprise web properties, ensuring 99.9% uptime and rapid resolution of critical bugs.
- Initiated the first phase of mobile responsiveness updates, transitioning legacy fixed-width sites to modern fluid layouts.

Graphic Designer, November 2006 to September 2010

- Designed and produced high-impact digital assets for the ToolBook authoring platform, including static graphics and dynamic Macromedia Flash animated banners that enhanced user engagement and supported key product marketing campaigns.
